Re: Autonomous Vehicle TCP Pilot Passenger Service - Cruise Quarterly Report 12/1/2021 to 2/28/2022

Dear Commission,

Enclosed please find Cruise LLC's Drivered Pilot and Driverless Pilot Quarterly Data Reports (TCP 39080A) for the period 12/1/2021 to 2/28/2022, submitted pursuant to Decision 20-11-046 (as modified by D.21-05-017) and the Charter Party Carrier of Passengers Act.¹

DRIVERED PILOT QUARTERLY REPORT (see *Attachment 1: Cruise Quarterly Report [Drivered]*)

On February 19, 2020, Cruise received the Drivered Pilot permit from the California Public Utilities Commission ("CPUC"). This pilot allows Cruise to offer drivered rides to members of the public. For this reporting period, Cruise has conducted a total of 47.3 miles of vehicle miles traveled. Included in this total are rides taken by Cruise employees as part of the Employee Early Rider Program.

DRIVERLESS PILOT QUARTERLY REPORT (see *Attachment 2: Cruise Quarterly Report [Driverless]*)

On June 02, 2021, Cruise received the Driverless Pilot permit from the CPUC. This pilot allows Cruise to offer unpaid driverless rides to members of the public. For this reporting period, Cruise has conducted a total of 3,326.1 miles of vehicle miles traveled. Included in this total are driverless rides taken by Cruise employees as part of the Employee Early Rider Program and by members of the public under Cruise's Public Pilot Program. In January, 2022, Cruise launched the Public Pilot Program under the Driverless Pilot permit, which allows selected public users the ability to take driverless rides using Cruise's app within the geographic boundaries of Cruise's operational design domain in San Francisco. The hours of operation for this program are 10:30 pm - 5:30 am daily.

Sincerely,
